

Lab: Generative AI for Storytelling

Estimated time needed: 30 minutes

Learning objectives

After completing this lab, you will be able to:

- Sign up in Zoho Analytics and upload a dataset
- Generate a report by prompting Zia AI

Welcome to the lab on **Generative AI for Storytelling**!

Overview

In this lab, you will learn how to use Generative AI to prepare a report for your data using charts and insights.

To begin, you need to create your login on the [Zoho Analytics website](https://www.zoho.com/analytics/) page.

Task 1: Sign up in Zoho Analytics

Step 1: Click www.zoho.com/analytics/

Step 2: Fill in the required information and click the SIGN UP FOR FREE button.

Note: You can sign up for Zoho Analytics using various options such as Google, LinkedIn, or a Zoho email account. The platform offers a 15-day free trial without requiring any credit card details.

or sign in using

Step 3: On the Welcome screen, click **Get Started**.

The image shows the Zoho Analytics 'Import Your Data' page for a user named Pratiksha. The page features a dark sidebar on the left with a 'Category' list including 'All', 'Most Popular', 'Recently Added', and various data sources like 'Files & Feeds', 'Cloud Storage/Drive', 'Databases & Data', 'Streaming Data', 'Zoho Apps', 'Sales/CRM', 'Marketing', 'Finance', 'Human Resources', 'IT & Help Desk', 'ERP', and 'Project Management'. The main content area has a 'Welcome Pratiksha!' message and a 'Get started in 3 simple steps' guide: 1. Import/Connect Data, 2. Create Reports & Dashboards, and 3. Share & Embed Reports & Dashboards. A 'Get Started' button is highlighted with a red box. On the right, there are video thumbnails for 'Watch getting started' and 'How to create dashboards', and a 'Request a Demo' link.

Task 2: Upload a dataset

Step 1: To download the dataset, press the **Ctrl** key on your keyboard and then, click [here](#).

Step 2: On your Zoho Analytics homepage, select **Local Drive**.

The image shows the 'Import Your Data' page in Zoho Analytics. The sidebar on the left is the same as in the previous image. The main content area is titled 'Import Your Data' and 'Import your data from a wide variety of sources to create insightful reports & dashboards.' Below this, there are two sections: 'Category' and 'Most Popular'. The 'Most Popular' section displays a grid of data source icons. The 'Local Drive' icon, which shows a green monitor with a white cursor, is highlighted with a red box. Other icons in the grid include 'Feeds/URLs', 'Google Drive', 'Zoho WorkDrive', 'SharePoint', 'Google BigQuery', 'Amazon RDS', 'Amazon Redshift', 'MSSQL', 'Zoho CRM', 'Google Ads', and 'Facebook Ads'.

Step 3: Enter the **Workspace Name** and click **Choose file**.

Step 1 of 2: Import Your Data
Import data from Excel, CSV, HTML, XML, JSON, Statistical & MS Access files

Workspace Name* (?)
Workspace - 1

Description

File Type
CSV,TSV & Other Text Format

Data Location
☒ Local Drive ☐ Pasted Data ☐ FTP

File* [Try Sample](#)
Choose File No file Selected
(Supported file formats: .CSV, .TSV and other text files)

Note:

- For other file formats, Choose the corresponding 'File Type' option above.
- For large size CSV or TSV or Text file, we recommend to zip it and upload.
- Zippped CSV, TSV or Text file should contain only one file in it.

General Info:
Data size should be less than **100 MB** and number of rows should be less than **1 Milli**

To Upload more, use our [Databridge](#), prov data is in CSV or TSV text file formats

Contact support@zohoanalytics.com for assistance

Step 4: Select and upload the electronics_dataset.csv file. Now, click **Next**.

Step 1 of 2: Import Your Data

Step 2: Enter the following prompts one by one in the Zia AI prompt bar and generate all the charts through Zia.

Prompt 1:

Show a line chart of total revenue grouped by month using the Order Date column.

Sample output

You can click **Zia insights** icon on the top-right corner to see the detailed insights of the generated chart as shown below.

Sample output

Prompt 2:

Create a bar chart of the top 10 products by total revenue.

Sample output

Prompt 3:

Create a pie chart showing each product's contribution to total revenue.

Prompt 4:

Create a pivot table with product name, total quantity ordered, and total revenue.

Sample output

Step 3: After generating all charts go to **Dashboard** and select **Create new Dashboard**

Step 4: Drag and drop the dataset in the report section.

Save As

Name: Generative AI Report

Save in Folder: Tables & Reports

Tag: Add a tag

Description:

Cancel OK

Task 4: Finalizing the charts to be used in the report

Step 1: Go back to Zia, save, and add the charts to the dashboard one by one that you created earlier.

Repeat the same step to add the other charts to the dashboard.

Step 2: Once the charts are added, go to the dashboard to find the charts that you have added.

Task 5: Saving and sharing the report

Step 1: Go to the View Mode.

Step 2: To export the dashboard, click **Export** and select the appropriate option to download the dashboard.

The screenshot shows the 'Generative AI Report' dashboard with a table titled 'Total Quantity Ordered grouped by Product'. The table has two columns: 'Product' and 'Total Quantity Ordered'. The products listed are Chair, Desk, External Hard Drive, Headphones, Keyboard, Laptop, Monitor, Mouse, Printer, and Tablet. The 'Grand Total' row shows the sum of all quantities ordered.

Product	Total Quantity Ordered
1 Chair	16
2 Desk	12
3 External Hard Drive	10
4 Headphones	10
5 Keyboard	10
6 Laptop	10
7 Monitor	10
8 Mouse	10
9 Printer	10
10 Tablet	10
Grand Total:	100

Step 3: You can also share it with your colleagues and peers. To do so, click **Share** and then select the option as per your convenience.

The screenshot shows the Zoho Analytics interface. The top navigation bar includes 'Home', 'Workspace - 1', 'Ask Zia', and a tab for 'Generative AI Report'. The left sidebar contains icons for Explorer, Dashboards, Reports, Data, Ask Zia, and More. The main content area displays a report titled 'Total Quantity Ordered grouped by Product'. The report table has two columns: 'Product' and 'Total Quantity C'. The data is as follows:

	Product	Total Quantity C
1	Chair	
2	Desk	
3	External Hard Drive	
4	Headphones	
5	Keyboard	
6	Laptop	
7	Monitor	
8	Mouse	
9	Printer	
10	Tablet	
	Grand Total:	

Conclusion

In this lab, you have signed up in Zoho Analytics, added a dataset, and generated a report.
